

## BRAINS IN OUR FEET

Words by Tom Attea

Do you hear that beat?  
Then watch how we dance.  
You'll see at a glance:  
We've got brains in our feet.  
Brains in our feet!

Every move's so sweet.  
Our bodies just flow  
So smoothly they show  
We've got brains in our feet.  
Brains in our feet!

We've got a high I. Q.  
Right here in every shoe.  
And we earn our dancin' rep  
With every clever step.

We're the new elite.  
'Cause who could improve  
The great ways we move?  
We've got brains in our feet --  
Brains in our feet.  
I repeat --  
Brains in our feet!
