

LIFE KISSED ME

Words by Tom Attea

I was always looking out at the stars
For a distant answer
And then one day I found the only answer I need
Right here in your arms
Life kissed me.
One day life kissed me
When it gave me you.
And now in all I do
And all i go through,
I know that once life kissed me,
Life kissed me when it gave me you.

Even when I wonder if all I'll ever know
Isn't way out beyond the stars
But right here
I think I can still find peace, because
Life kissed me,
One day life kissed me
When it gave me you
And now in all I think and do
From now until my last day is through
I can never forget that one day life kissed me.

Sometimes I get mad, because no matter how high I reach
I can't get beyond what I know.
It's almost as if there's a roof over my head
I can't see above.
I could feel all my work is useless
And sink into despair
But think I think all I really have to know
Is that I have you.

And when I wonder if the little circle of my life
Is just a circle that winds down to rest
And never opens out beyond itself
At the last moment I'll be happy I was born because

One day life kissed me,
Life kissed me the day it gave me you.
And now, in all I think and do,
And in any pain and doubt that I go through,
I can always remember that
One day life kissed me.
Life (took me in its arms and) kissed me
The day it gave me you.
Life kissed me when it gave me you.
