

THE LOVE WE MADE

Words by Tom Attea

When hope gets lost,
Lost in the crowd,
I forget to be too proud,
And all I want to do
Is get back to the life we knew.
Oh, babe, I need to be
In the love we made.
It's the love that stayed,
Stayed with me.

The world is made,
Made up of things
Only love warms up and brings
A special softness to,
And I learned about that with you.
Oh, babe, I need to be
In the love we made.
It's the love that stayed,
Stayed with me.

I try to think away
The feelin' that we had.
Can't even dance away
That now I'm always sad.
There's just no way to shake
The heavy, steady ache
That says it could be true
That the love we had is through.

Now I'm outside,
Outside of love,
And I just keep dreamin' of
How love once wrapped its arms
Around me and worked all its charms.
Oh, babe, I need to be
In the love we made.
It's the love that stayed,
Stayed with me.
